

The Black Flag Campaign

A Campaign to remember those Iraqi civilians who have died during the two years of attack on Iraq.

In Iraq, deaths are announced by black flags which are displayed on buildings, fences or poles up and down the city streets. During this war 100,000 Iraqi's have been killed.

The occupying powers refuse to count the bodies of those who have died. The Black Flag Campaign is working at bringing dignity to those who have been casualties in the war.

We won't let their deaths go unacknowledged!

March 19, 2005 marks the second anniversary of the war against Iraq, support the campaign The Black Flag Coalition (403) 270-9669 or info@candil.ca
